Private lessons, group lessons, camps, corporate events, library classes, performances, online lessons, and orchestras forming around the world. We've got stuff going every week. If you want me to offer a class near you or help you teach an intro to ukulele course in your neighborhood, contact me and we'll find a way to make it happen.

### **What's on the Website (mostly free) ...**

Ukulele can be played in many musical (and goofy) ways. I teach them all.

- Solo playing using individual notes, chords, and vocals. Singing is optional.
- Duet and small ensemble arrangements for hundreds of songs.
- Ukulele and Baritone Ukulele treated with equal importance.
- Large group material tested and ready for your ensemble.
- Melodic songs from all genres and time periods you've maybe never heard.
- Ukulele skills - the good ones - need to be taught by more teachers. We need you.
- You will learn to read standard notation and tablature at the same time.
- If you have previous musical experience, this will give you instant satisfaction, and if you have university training, it'll help you question everything you thought you knew and then help you fix the dumb stuff.
- If you have no previous musical experience, you'll be playing real music quickly and have years of material to keep you rawkin'.

**More than just a "how to play ukulele" program - become a complete musician.**

- Care, maintenance, and repair of all stringed instruments.
- Beginning material everyone should tackle leading to ever more complex works.
- Tools to build musicianship useful for all instruments including theory, arranging, composition, and performance.
- Enough to keep advancing students happy for years of adventure in music.
- Teacher certification program.
- Epic sold-out concerts in-person and online. Workshops all over the place.
- Regular updates with new and updated arrangements.
- Thousands of instructional videos.

### **A Bit About Me**

My name is Gary Jugert and I've been involved in making bad music for 35 years and on the ukulele for 25 years. I hope to help you start creating art rather than consuming other people's music. I will pretty much do anything to promote the ukulele, and I try to encourage ordinary people into making extraordinary music.

I also work with schools, non-profits, and libraries for institutional purchases. I do ukulele repairs, set-ups, and string changes. If you need a video on any ukulele-related topic, just ask. I'm into guitars and harmonicas and (of course) kazoops too. I'm a pretty good resource for most any ukulele question if you're a patient listener. I like to talk a lot. A LOT.

# Doing Ukulele & Baritone Ukulele Right!

## Here is the ONLY “rule” & it’s IMPORTANT

The pad of your left thumb goes behind the neck of your ukulele and follows along behind your middle finger just like Stu is doing above. We should never ever ever ever see your left thumb. There are no exceptions ... and if you do this one thing, your life will be so much easier down the road when we end up dealing with difficult chords and when speed matters.

## A Simple Way to Make Playing Easier

Add a button onto the end of your ukulele and wear a strap when you play. You’ll need to drill a small pilot hole in the end of your uke. It’s OK. Don’t use the ones with the clip. They’re evil.

## What You DON’T Need

**A Capo:** You’ll be making so many bar chords a capo will just get in the way. If you have guitar in your background, you’ll have to let it go.

**A Pick:** Seriously throw them away. You’ll be using all of your fingers simultaneously in lots of different ways. If you want to grow out the fingernails on your right hand it’s kinda weird but useful. Sorry, but the fingernails on your left hand hafta go. A good manicurist can still get unicorn stickers onto short nails and you’ll look marvy.

## Ukulele Types

**Soprano:** Small and traditional.

**Concert:** A little bigger and easier to play.

**Tenor:** Most adults should be playing tenor.

**Baritone:** Four string guitar for bigger hands.

**U-Bass:** The lowest ukulele is tuned like a bass.

**Banjolele:** An ukulele with a banjo head for playing real loud without teeth or shoes.

Your hand size and finger shapes determine the best size for you. Wait to buy an expensive ukulele until you know what sound and playability issues matter for you. Almost all ukuleles can be amplified by adding an electronic pickup.

## Stuff You’ll Need

- An ukulele, duh! (pronounced oo-koo-leh-lay)
- A button and an ukulele strap
- A gig bag with a shoulder strap
- A Snark ST-8 clip-on tuner
- A music stand and light
- A three-ring binder with section dividers, or if you’re loaded, use an iPad and ForScore
- Highlighters and pencils
- A kazoo ... no really, seriously

**Strings:** If your strings are white or black, you need to change them to modern fluorocarbon within six months of your initial purchase. You need to change strings at least once a year.

**A Note About Low-G Tuning:** A metal-wound Low-G string can tear your instrument apart if it’s not built for the pressure. You can always use a plastic Low-G string (but they don’t sound good). Low-G ukuleles are built stronger and cost more.

## Other Helpful Notes

- Hold your ukulele at a 60-degree angle.
- Make sure the back of the ukulele remains in contact with the front side of you.
- Don’t lay your ukulele in your lap or let it fall into a horizontal position.
- Dots are on frets 5, 7 and 10. Memorize!
- Tension will ruin your joy in music. The only pain you should feel is on your fingertips and your left thumb should feel tired

# Tune Your Ukulele (every time you play!)

This is George Clooney. He used to be wildly famous. People Magazine gave him an award for being dreamy in 1997 and then again in 2006. He's old now and he still looks better than everybody. He married a model and lives in Italy. But kids these days don't know him because he wears a suit of armor and sells Nespresso. I've decided I'm bringing George back. Help make him famous.

## George Clooney Eats Apples = GCEA

- or, Goats Can Eat Anything = GCEA
- For **BARITONE** ukuleles use DGBE
- Canadian tuning is **ADF#B** (just 'cuz)

Use a **top of the line clip-on tuner** or a **tuning app** on your phone. Check your tuning every time you play.

## How to use Relative Tuning ... buy a tuning fork tuned to A.

Check the open string #1, string #2 on the fifth fret, and string #4 on the second fret. Once those are set, double check every string as shown to see if they sound the same.

# Playing the C Scale

Low-G ukes only      This is where you find the C major scale on your ukulele.      Extra notes.

**Playing the C Scale:** Learn effective techniques for each hand.

For now, use only your thumb on your right hand. On your left hand use:

- If you play a 1: Use your index finger.
- If you play a 2: Use your middle finger.
- If you play a 3: Use your ring finger.

Start on Middle C, play up to High C, and then turn around and go back down.

In almost every style of music and on every instrument, musicians play scales to warm up their hands and study the best ways to move to achieve the best tonality. This is your first scale. It's the most important one on ukulele.

To be an effective musician you'll need to memorize the piano keyboard layout. It's easier to learn the pattern of those notes on the piano and then find them on your ukulele. The layout of the "white keys" are shown here. The black keys have two names (sharp or flat) and those live between the notes shown. This layout is effective at explaining why you find dots on your fretboard at frets 5 and 7 too.

## Clementine [3/4]

In a [A] cavern in a canyon excavating for a [E7] mine dwelt a [D] miner forty- [A] niner, and his [E7] daughter Clemen- [A] tine.

Oh my [A] darling, oh my darling, oh my darling Clemen- [E7] tine. You are [D] lost and gone for- [A] ever dreadful [E7] sorry Clemen- [A] tine.

Light she [A] was and like a fairy and her  
shoes were number [E7] nine. Herring  
[D] boxes without [A] topses, sandals  
[E7] were for Clemen- [A] tine.

Drove the [A] ducklings to the water ev'ry morning just at [E7] nine, hit her [D] foot against a [A] splinter, fell in- [E7] to the foaming [A] brine.

Ruby [A] lips above the water, blowing bubbles soft and [E7] fine, but [D] alas I was no [A] swimmer, neither [E7] was my Clemen- [A] tine.

In a [A] churchyard near the canyon, where

by Clemen- [A] tine.

- You'll find B#, E#, C♭, F♭, and double sharps here, but don't be a psycho. Simplify the spelling of those chords when you use them. They're here because they're accurate, not because they're wise.
- Ukulele friendly keys are marked in orange. Principal chords in each key are also marked in orange.
- In the not-so-ukulele-friendly keys, you will find using all bar chords will work better ... probably.
